Homework 3

Due: 10am Friday 10/15/2021

1. *Airbnb price prediction.* Work through the notebook `https://github.com/ORIE4741/homework/blob/master/airbnb.ipynb`.

   (Yes, you can still use the Airbnb dataset for your project if you wrote your proposal on it. This homework by no means answers all the questions you can ask about this dataset!)
